Please note, that any players named in a team in the roster book who receive a grade change during the season, continue with their original grade whilst playing with the team they were named in, however, when filling in for another team, must take on their new grade.

For players not named in a team (in the roster book), who receive a grade or a grade change during the season, take the new grade at the date specified in the newsletter and play as that grade in any matches.

60th Anniversary

This season, the AYC competition is in 60th season. This is a marvellous achievement and one we think is worth celebrating. The end of season dinner this year will encompass anniversary celebrations. A sub-committee has been established to organise this event. Involvement from Clubs would be much appreciated. We're after photos, stories or any memorabilia which will reflect the history of our competition. Please talk to your Club representative about this event.

The cost to attendees will now be heavily subsidised. Details to come. Mark your calendars and remember to organise your baby sitters and/or your taxi ride home. **Saturday May 5.** Alternatively, book a night's accommodation at the Old Woolstore.

Tennis Australia Rules

It has come to our attention that some Clubs have yellow booklets in their Clubhouses called Tennis Australia Rules but it is dated 1993 and is out of date. We will research obtaining more recent ones.
