PRESIDENTS REPORT

I am pleased to be able to present the annual report for the season 2019 / 2020.

It has been an interesting season, starting with some robust discussion on the best format for the pennant to progress and Glenorchy losing their lights and finishing with the pennant abandoned as the Coronavirus took over the community.

In between there has been plenty of good tennis played in a sociable environment, congratulations to all of you have experienced some success in a pennant team, in one of our doubles events or perhaps have won an individual award.

This season has seen a trial of playing the AYC Doubles on a Sunday afternoon with sixteen mixed doubles pairs enjoying a good afternoon at the Kingston Tennis Club and an extension of the doubles into two subsequent events, one each at Glenorchy and Rosny. Both have been well supported but would benefit from increased numbers to even out the matches. We will be interested to see if support for these to continue exists for the next season.

Our survey of the Clubs and Players resulted in some fifty one players and four Clubs contributing their thoughts and preferences on what might be best for the Association going

forward. I am hopeful that we can use this information to find an approach that not only maintains support from the existing player base but makes our pennant and other tennis opportunities appealing to a broader group of players.

During the season Geoffrey Dunlop has been helping us with analysis of the results to contribute to the regrading process. While achieving fair and equitable grades that result in good even tennis is a difficult process, particularly with those ladies playing in the male dominated X Divisions, the analysis based on the ITN approach provides an approach that is devoid of emotion and players issues and provides a means for us to compare players that we know well with players that we are less familiar with. This information combined with the player knowledge provided by the Club representatives should help us to reach a reasonable position on changes to players grades. I appreciate the time that Geoffrey has taken to help us with this aspect of the pennant.

I wish to thank all of the Committee members for their input during the season, while numbers are reducing, we have managed to provide well organised tennis for some one hundred and sixty players. As we are effectively the opportunity for all of the southern suburban Clubs to get together regularly the scope may exist for us to better help each other to provide more tennis opportunities for our members.

The recent advertisement to sell the New Town Tennis Club signals the end of another local tennis club, once the home to eight AYC teams New Town remains active and it is important that those players that remain are not lost to either AYC or tennis generally. I am confident that the other Clubs, much like their support for Glenorchy, will be offering a home to anyone displaced at New Town.

In closing I look to the start of the next season, I'm sure there will be a few challenges in getting everyone out of isolation and back into some organised tennis. Some will be hesitant, others will be enthusiastic, our task is to find the best way in which to get them all involved.

I hope to see you on the court during the 2020 / 2021 season.

Add Income for Year	\$ 950.80	\$ 1,388.40
Closing Retained Earnings 30/6/2020	\$ 4,983.79	\$ 4,032.99
<p>We have again ended the year with a slightly better financial position than last year with an ending bank balance of \$4,983.79. There was no end of season celebration as the COVID19 rules did not allow this to occur but hopefully 20/21 will allow us to get together again. Administration fee of \$2,000 was paid to Campbell Palfrey for all his work as secretary/ tournament/pennant official for this financial year. This amount is insignificant compared to all the time and effort that Campbell has contributed to AYC this year.</p>
