

## **Tennis Scores – Using The App**

Install the App to your device, iOS or Android

### **Subscribe if you wish to be able to enter results**

Set the Competition you wish to be able to enter results for, can be multiple if required.

You will need to have your permissions updated so you can enter results.

### **To Enter Results**

Open the App and navigate to your Division

Pick Results from the bottom menu

If you have any substitute players make the changes by

Swipe a pair from the team you wish to substitute in

Left for the right hand side team or right for the left hand side team

Pick the Adjust Teams button that appears

Swipe right on the player that you wish to substitute

Pick Substitute

Find the Substitute player in our list. You can't add a new player at this stage

Confirm the substitute player

Save as required

### **If The Player Order Needs To Change**

Use the multi dot icon to drag players up or down to change the order.

Save as required

### **Once The Player Names And Order Are Correct**

Pick the Match Banner

Pick each of the score boxes and enter the sets scores

If you have a Super Tie Breaker pick the grey line / box, a number pad will appear

Enter the STB score. At present the two digit score won't fully display. It is OK

Once the scores are entered pick Save

### **Please Note**

There is a delay in the result being updated in the live database.

To see the updated Ladder, back out and re select your Division

Select the Ladder button
