

Tennis Program Packages

The Sporting School tennis programs will complement the already existing ANZ Tennis Hot Shots Program where over one million students have been exposed to tennis at schools over the past three years. Tennis is very passionate about supporting schools with the delivery of sustainable health and physical education programs and as the National Sporting Organisation (NSO) for Tennis, we look forward to assisting you with this.

Tennis Australia is offering two programs as part of the Sporting Schools initiative, based on the ANZ Tennis Hot Shots program. The Partnership and Play programs are made up of fun tennis activities which support skill acquisition and movement all whilst 'playing the game' in a meaningful way. Through both programs, students will become confident and competent which is important when trying new sports.
