Guide to Entering Scores on
Match Centre

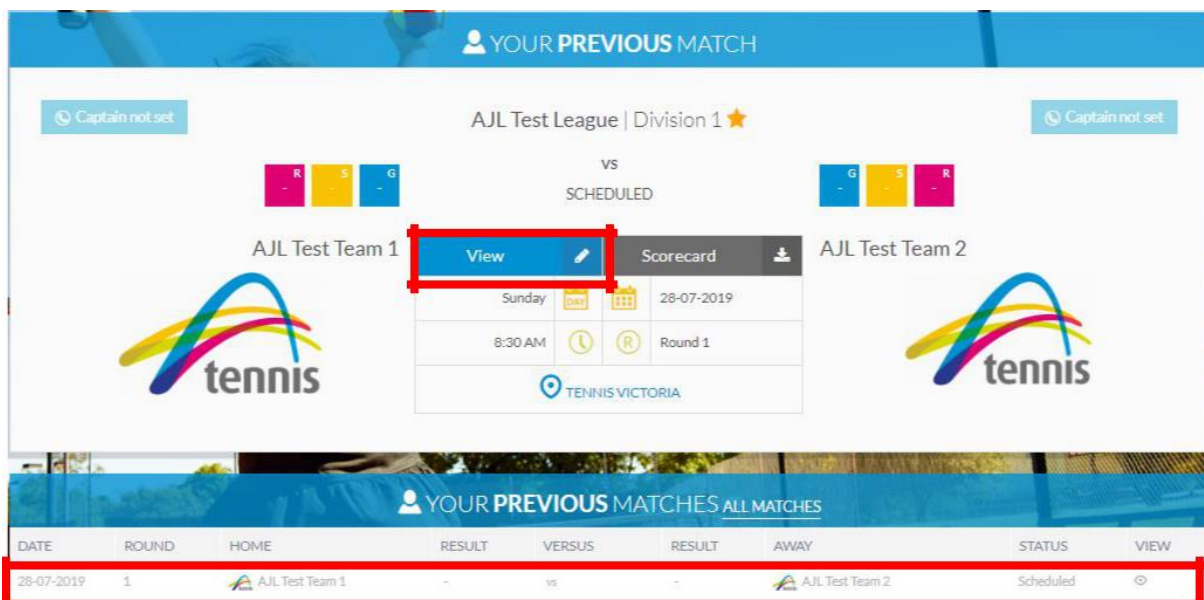

**GET
COURT
UP**

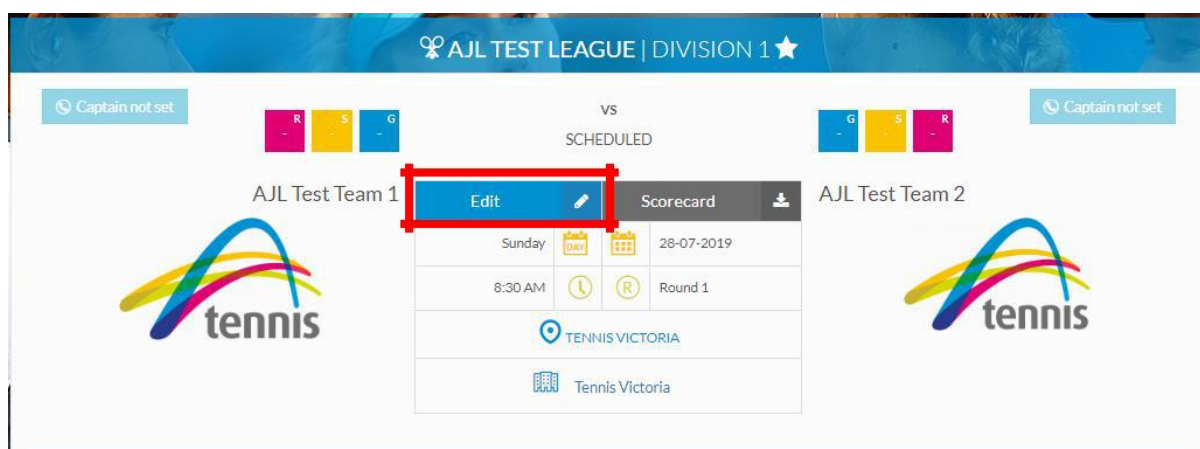

1. Log in to Match Centre (leagues.tennis.com.au) on your desktop or mobile device

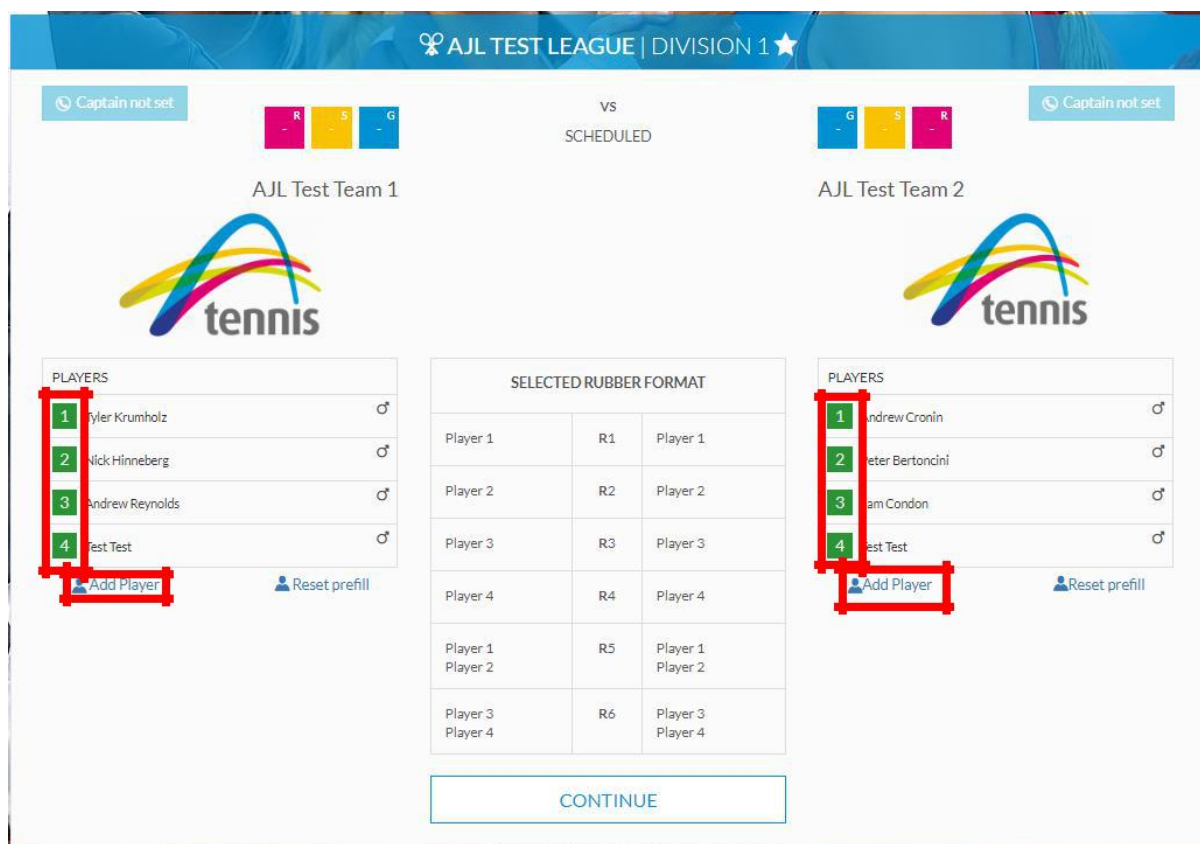

2. On your Dashboard, scroll down to “Your Previous Match” or “Your Previous Matches” and click on “View”. (Note – the only way to access a scorecard to enter the score is through your Dashboard. If you don’t see the match in your Dashboard, it is likely that your Tennis account profile is not the one registered for your team, and you will need to merge your duplicate profiles. Contact sydneybudgetennis@tennis.com.au)

3. Click "Edit" on the scorecard page

4. Select your players that participated in the match in their correct order. If you need to add a new player, click the Add Player link directly below the player list. There is a guide to add players on Match Centre on the Pennant website: tennis.com.au/vic/players/competitions/pennant. Click continue once players are added.

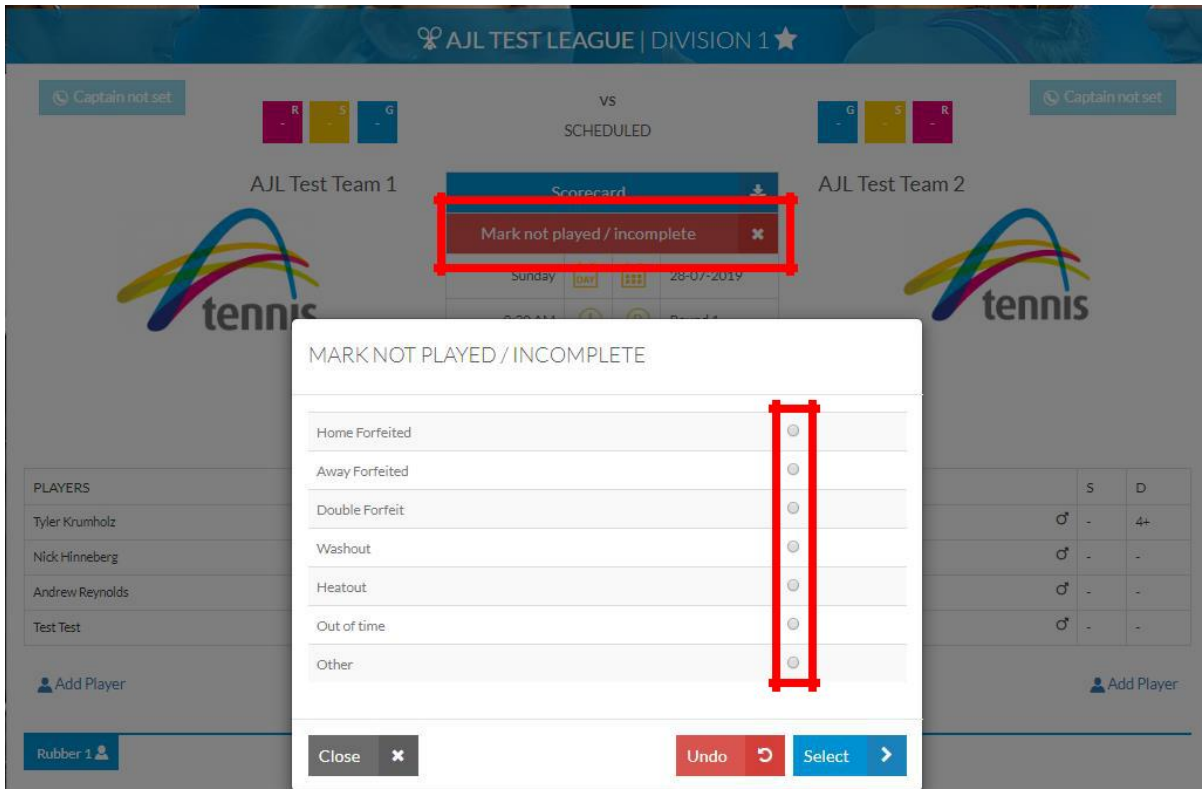

5. Enter the results for each rubber. If a rubber was a forfeit, retirement, or was incomplete, select that option above the players. For a retirement or incomplete rubber, enter the score to where the match was stopped. A retirement will allocate the remaining games and sets that should have been played to the winner. For a forfeit, do not enter a score. The games and sets will be allocated to the winner.
