

UNIVERSAL TENNIS RATING

WHAT IS UTR?

Universal Tennis Rating (UTR) has emerged as the metric system of tennis, worldwide. UTR rates every tennis player - regardless of age, gender, or nationality - on a 16-point scale with two decimal places. It is by far the most accurate and reliable index of tennis skill available to players, coaches, tournaments, and federations to facilitate level based play.

ACTIVATE YOUR UTR PROFILE

UTR provides a real-time view of a player's true skill level. Having a UTR enables you to track your progress, find level-based play, and expand your tennis network to play with people across age, gender and tennis silo.
