## Player Benefits

### More Fun & Better Competition

Players said matches were more competitive in UTR tournaments vs. other events, making the experience enjoyable. It was a stress-free environment, more focused on competing and development.

### More Matches in Less Time

Players appreciated the guaranteed 3 matches in 3 hours and that they were placed in a draw based on their level. They loved playing people they normally wouldn't see.

### UTR = Equalizer

Many coaches and parents noted that UTR events are all about skill level, regardless of age or gender.

### New Players Rated

At the conclusion of the event, 14 players acquired a rating for the first time.

**"Our son just played a girl 5 years younger than him, and she gave him a run for his money. To see people able to play based on their ability and not their classification is pretty inspiring."**

- Player Parent

## Organizer Benefits

### Easy to Run

It was easy to create the desired tournament, based on the number of courts and players. The UTR platform is very flexible, and it provided everything necessary to run the tournament.

### Ability to Enjoy the Event

The day went very smoothly, since the draws were pre-set. So, less time was spent managing and more time with the players/parents.

### Easy Incremental Revenue

Courts were used that otherwise would have been empty. Running a UTR tournament brought in extra revenue.

### Potential New Members

Event participants are great candidates to become members of the club/academy tournament location. And, players wanted to know when the next tournament was happening because it was such a good experience.

**"You've got 40 year olds out here and young kids. It's cool seeing everyone able to play together and have a great time!"**

- Ryan Fischbach,  
Former Menlo Tennis Team Player
