

# NT LAG forum – summary feedback

**Sunday 25 October, 2009 - Darwin, Northern Territory**

Total of 13 attendees

[+ indicates the additional number of people who mentioned the same or similar view point].

<p><b>I learned ...</b>                  Coaches have similar experiences, sharing common concerns/views/issues++                  Valuable information re LAG ++                  The coaches in the NT work very well together (working together to achieve the optimum for the players) ++                  What kinds of strategies we can do to solve some of the problems we have with our coaching                  There are now LAG representatives you can go to, to have your say                  That as coaches we make assumptions with others when we think they should know                  That my isolation in my regional area is only part of the geography with Darwin isolated to other states                  There is help out there                  Coaches all have different reasons for coaching, something I have forgotten  <b>Comment: The coaches in the NT work very well together, Pat Coburn</b></p>
<p><b>I liked ...</b>                  Getting together with other coaches – open environment to talk to and share ideas +++++++                  The promotional handouts, specifically the Tactical DVD +                  When we broke up into groups to discuss different strategies to overcome your blocking points  <b>Comment: Open communication with everyone and sharing ideas, Nicky Mayer</b></p>
<p><b>I felt ...</b>                  It was interesting                  Proud to be part of coaches organization                  More knowledgeable in most areas in this department                  The force analysis has been done to death in my head, others would have found it valuable                  As if most of the information didn't really apply to me but it was informative though                  Comfortable in the forum and able to assist others                  Some good strategies were put forward and I hope they can be followed up                  Happy  <b>Comment: the coaches were all looking at tennis coaching with the same vision, very exciting, Rohan Fisher</b></p>
<p><b>I thought ...</b>                  Excellent presentation and good ideas ++                  I got lots out of it                  That is was well presented and easy to understand the information                  Belinda did a good job and I enjoy her style, she is good fun and I would like her to work with NT girls team in Melbourne                  Belinda's presentation was good and well led  <b>Comment: We do a lot of good things in the NT, Anonymous</b></p>
<p><b>I wonder ...</b>                  If action will be taken on issues that are most important to coaches +++                  More information filtered to clubs consistently is very valuable                  Is having the best course: longest, hardest, most comprehensive, good for TA or appropriate for our market?                  How do we continue forward. I think in the Territory that working together makes us a strong force and can only continue to develop better coaches and players                  How players in Darwin will develop without Pat?                  If we should not send out a questionnaire before the meeting re seeing what they want from the forum?  <b>Comment: If the strategies would be followed up? Are the strategies more important from larger states? Liz Grylls</b></p>
