What is MLC Tennis Hot Shots?

The MLC Tennis Hot Shots program is a fun and exciting way for children to get into tennis. Aimed at children aged 5-12, it uses modified courts, racquets and balls to keep things fun and easy. The program is based on a 'learning through play' philosophy where children serve, rally and score.

MLC Tennis Hot Shots is Tennis Australia's official starter program and it's designed to let children develop technically and tactically in an environment that's always fun and exciting. Children love it and they're usually ready to start as soon as they can swing a racquet.

Children will:

- have lots of fun and stay healthy
- meet friends and build social skills
- play with modified equipment designed especially for kids
- develop skills and tactical awareness
- have the opportunity to play in challenge events
- easily progress to full-court tennis.

Stages of development

Launch Pad stage

Children begin by exploring fundamental and perceptual motor skills and tennis basics. There are a number of program options at this stage, including the official Launch Pad program, Wilson peeWee tennis.

Red stage

Children use 25 percent compression red balls that bounce lower, slower and are much easier to hit. Children play on three or six-metre wide courts. Recommended racquet size is 21–23 inches.

Orange stage

Children use 50 percent compression orange balls and play on regular courts with reduced length. Recommended racquet size is 23–25 inches.

Green stage

Children play on a full-sized court using 75 percent compression green balls. Recommended racquet size is 25–27 inches.
