**Introduction**

The dimensions of a tennis court are defined in the Rules of Tennis by the International Tennis Federation. Rule 1 defines the dimensions of both a singles tennis court and doubles tennis court.

For practical purposes the vast majority of tennis courts are built to doubles dimensions, which allows for both singles and doubles.

**Orientation**

Courts should be oriented so that the sun inconveniences players as little as possible. The best orientation will depend on the time of day and time of year that play is most likely to take place, with a north-south orientation preferred.

**Dimensions**

The dimensions of a tennis court defined in the International Tennis Federation’s Rules of Tennis are expressed in Imperial units (feet & inches). In Australia the equivalent dimensions are expressed in Metric units. All dimensions are measured to outside of lines.

**Characteristics**

Outdoor tennis courts have a built in slope to facilitate drainage, the design gradient depends on how the storm water is to be drained. The design gradient of the court is generally between 1% and 1½%, the degree of gradient is influenced by whether the tennis court’s base is permeable (vertical flow of water) or impermeable (surface run-off). The gradient may vary; for example, due to material type, the number of courts.

**Playing Lines**

The width of all lines on the tennis court shall be a minimum of 2.5cm and a maximum of 5cm except the baseline, which may be 10cm, and the centre service lines and centre mark, which shall be 5cm.

**Playing Area**

For international standard tournaments the overall area required is defined dependent on the event. A guide to minimum court area requirements (single courts) can be found in the following table:

<table>
<thead>
<tr>
<th>Court Dimensions</th>
<th>Club / Recreation</th>
<th>ITF (e.g. Pro Tour, Davis/Fed Cup Zonal ties)*</th>
<th>Stadium Court (e.g. Davis/Fed Cup World Group ties)*</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total Area</td>
<td>34.77m x 17.07m</td>
<td>36.6m x 18.3m</td>
<td>40.23m x 20.11m</td>
</tr>
<tr>
<td>Run-off at back of court</td>
<td>5.48m</td>
<td>6.4m</td>
<td>8.23m</td>
</tr>
<tr>
<td>Run off at side of court to fence</td>
<td>3.05m</td>
<td>3.66m</td>
<td>4.57m</td>
</tr>
<tr>
<td>Minimum distance between two courts (unfenced)</td>
<td>3.66m</td>
<td>5.48m</td>
<td>n/a</td>
</tr>
<tr>
<td>Recommended distance between two courts (unfenced)</td>
<td>4.27m</td>
<td>n/a</td>
<td>n/a</td>
</tr>
</tbody>
</table>

*Note: Other considerations apply
**Playing Lines**

The plan and dimensions of a tennis court’s lines are (not to scale). All measurements are to the outside of the lines.
Dimension guide

For both recreational and club play (not to scale).
As a guide, the suggested recommended minimum and recommended dimensions for tennis courts are:

IN CASE OF NO OBSTRUCTIONS

REC 4.27m (14ft)
MIN 3.66m (12ft)

IN CASE OF NETS

REC 3.05m (10ft)
MIN 2.75m (9ft)

IN CASE OF FIXED OBSTRUCTIONS

REC 3.66m (12ft)
MIN 3.05m (10ft)

Principle Playing Area (PPA) and Inter-court Spacing

Total Playing Area (TPA)
