

# YOUR CLUB CAN CASH IN BY CONNECTING PLAYERS TO TENNIS

## \$5 for every verified player

Our aim is to inspire people to play more tennis, more often at courts around the country, and that starts with knowing our players. That way we can make better decisions about the future of tennis and motivate tennis communities to GET COURT UP in the game.

**Important:** Recent changes to privacy laws mean everyone involved in the sport must be more aware of their obligations to collect players' permission before sharing personal information. The best way to protect your club and your players' privacy is to collect registrations online.

### How to build your cash reward

**OPTION 1:** Activate online registrations via My Tennis and ask your players to register themselves. Direct registrations protect you from privacy law issues, and players who register online are automatically verified.

**OPTION 2:** If managing offline registrations, please ensure you collect each players' email address and permission to be registered to tennis. You can then use My Tennis to send your players an email requesting them to verify their details online. Your club will earn \$5 for every player who registers to your club and completes the verification process. It's that easy!
