

2023 AUSTRALIAN TENNIS AWARDS SELECTION PANEL CRITERIA

State and Territory award winners will be nominated by their Member Association (MA) for the equivalent national awards. From these finalists, the Australia Tennis Awards (ATA) Selection Panels will determine the winner and two finalists for their respective award category.

To provide consistency in the selection of national award winners, the ATA Selection Panels for each category must consist of the following:

- Three panellists, unless otherwise specified in award selection criteria document
- A lead panellist who is a full-time Tennis Australia (TA) staff member, a Member Association (MA) representative with category expertise, and either another TA or MA representative
- Independent panellists may only be included if specified in the award selection criteria
- Gender and geographical diversity should be reflected in all panels.
